#### REMARKS

The Notice states that the nucleotide and/or amino acid sequence disclosure does not comply with the requirements of 37 C.F.R. § 1.821-1.825. The Notice states that applicant must provide: (1) an initial computer readable form (CRF) copy of the Sequence Listing; (2) an initial paper copy of the Sequence Listing and an amendment directing its entry into the application; and (3) a Statement that the content of the paper copy and the CRF copy are the same and includes no new matter.

In response to a Notice to File Missing Parts of Nonprovisional Application received from the United States Patent and Trademark Office for the above-identified application, applicant filed a CRF copy and a hard copy of the Sequence Listing in accordance with 37 C.F.R. § 1.821-1.825 on March 26, 2002. Also, on March 26, 2003, applicant filed the required Statements under 37 C.F.R. §§ 1.821(f) and 1.825(g) that the content of the Sequence Listing information recorded in computer readable form is identical to the
